National Volunteer Fire Council

Contact: Legislative Chair: Dave Finger
(888)275-6832 dfinger@nvfc.org

On Monday 7/23/2018, I received a detailed email from Dave Finger. It documented that the single most important item of legislation is that the President signed into law, the Firefighter Cancer Registry Act. The below information was supplied by Dave Finger from the NVFC Website.

On June 21, the Senate Appropriations Committee approved [S.3109](#), a bill making appropriations for the Department of Homeland Security (DHS) for FY 2019. [S.3109](#) maintains funding for the Assistance for Firefighters Grant (AFG) and Staffing for Adequate Fire and Emergency Response (SAFER) grant programs at \$350 million each. It also increases funding for the U.S Fire Administration (USFA) by \$1.1 million.

On June 22, the U.S House of Representatives passed [H.R.931](#), the Firefighter Cancer Registry Act, by unanimous consent. [H.R.931](#), which passed the U.S. Senate in May, directs the Secretary of Health and Human Services to develop and maintain a voluntary registry of firefighters to collect relevant history and occupational information that can be linked to available cancer registry data in existing cancer registries. [H.R.931](#) will be presented to President Trump for his signature at which point it would become law.

On June 25, Senator Heidi Heitkamp (D-ND) introduced [S.3124](#), the Help Encourage a Lifetime of Public Service (HELPS) Act, which would waive interest payments on federal student loans for public servants, including volunteer emergency responders. The bill would also make volunteer emergency responders eligible for the Public Service Loan Forgiveness (PSLF) program, which forgives federally-financed student loan debt of individuals who have been public servants and made all of their student loan repayments for 10 consecutive years.

On July 7, President Trump signed the Firefighter Cancer Registry Act [H.R.931](#) into law. The bill directs the Secretary of Health and Human Services to develop and maintain a voluntary registry of firefighters to collect relevant history and occupational information that can be linked to available cancer registry data in existing state cancer registries. [H.R.931](#) originally passed the House in 2017. IN May it was passed by the Senate with minor changes, and in June the House unanimously agreed to the Senate changes, which sent the bill to President Trump for his signature.

On July 18, Legislation authorizing the creation of a National EMS Memorial on federal land in the District of Columbia passed the House of Representatives. The bill [H.R.1037](#), was introduced by

Representative Steven Lynch (D-MA) on February 14, 2017 and was passed by a vote of 414-0. Similar legislation in the Senate, [S.1692](#), was introduced by Senator Christopher Coons (D-DE) on August 1 and was passed by voice vote in the Senate on June 6.
